***Response to Amendment***

After-Final Amendment filed 06/28/04 forms the basis of this Official Action. In said After-Final Amendment Applicant substantially amended both independent claims 12 and 17. With reference to Interview Summary mailed 6/28/04, the After-Final Amendment is herewith entered. Claims 12 and 15-21 are pending, claims 1-11, 13-14 and 22-31 having been previously canceled.

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney P. J. Ditmyer (Reg. No.: 40,455) on August 6, 2004.

The application has been amended as follows:

**BEGIN OF EXAMINER'S AMENDMENT**

In the Specification, on page 11, line 26, the wording "to surround the region 105" has been replaced by "to surround the region 105 on all lateral sides".

In Claim 1, line 31 (second line from the end), the wording "surrounding said first region on all sides" has been replaced by "surrounding said first region on all lateral sides".

Art Unit: 2826

In Claims 17, line 28 (third line from the end) the wording "on all sides" has been replaced by "on all lateral sides".

**END OF EXAMINER'S AMENDMENT**

2. The following is an examiner's statement of reasons for allowance:

**Claims 12 and 15-21** are allowed. Closely related art is Hunter et al (4,631,803) as cited in the latest office action. However, within the context of the invention as claimed by independent claims 1 and 17, i.e., particularly within the context of a substrate and an epitaxial layer on said substrate and of lower but same conductivity type as said substrate and with an isolating element that extends at least to the top surface of said substrate but terminating above a bottom surface thereof no prior art has been found in which said isolating element surrounds either the first region or the second region on all lateral sides. With reference to the latest Interview Summary, Kobayashi (5,476,809) does not disclose the claimed limitation that the isolating element to surround the first or second region on all lateral sides.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Johannes P Mondt whose telephone number is 571-272-1919. The examiner can normally be reached on 8:00 - 18:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nathan J Flynn can be reached on 571-272-1915. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
